PROFESSIONAL SUMMARY

Full-Stack Stack Developer with 6 years of experience building scalable, high-performance web applications using MongoDB, Postgres, Express.js, React.js, and Node.js. Delivered production SaaS systems across healthcare, real estate, and e-commerce domains serving 100,000+ users. Expert in frontend architecture, REST APIs, Redis microservices, real-time SSE, and Agile/Scrum delivery. Reduced bugs by 30%, improved page performance by 40%, and accelerated feature delivery by 50% through optimized engineering practices and AI-assisted tooling and technologies.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, HTML5, CSS3, Zustand
Backend:	Node.js, NestJS, Express.js, REST APIs, Microservices, Server-Sent Events (SSE), WebSocket, LLM, RAG, Langgraph
Database & Infra:	MongoDB, Postgres, Redis (Pub/Sub, Caching, Queues), AWS
Tools & Practices:	GitLab, CI/CD Pipelines, Jest, Jira, Figma, Agile/Scrum, Code Reviews, System Design
AI Dev Tools:	Cursor, GitHub Copilot, Claude

PROFESSIONAL EXPERIENCE

Software Developer — Agile Infoways Pvt. Ltd.

Ahmedabad, India | Oct 2022 – Present

- Architected scalable React.js frontend systems for healthcare SaaS platforms serving 100,000+ active users using reusable component libraries and design systems.
- Delivered production applications across healthcare, real estate, and service-booking domains including white-label platforms with modular theming and feature flags.
- Reduced bugs by 30% and improved page performance by 40% via optimized Redux state management, API efficiency, memoization, and standardized UI systems.
- Built full-stack backend services using NestJS, MongoDB, Postgres, Redis (pub/sub, queues, caching), Amazon S3, and SSE-based real-time communication.
- Accelerated feature delivery by 50% using AI-assisted tooling; led Agile/Scrum sprint planning, code reviews, and high-priority production incident resolution.

Assistant System Engineer — Tata Consultancy Services (TCS)

Bengaluru, India | Nov 2020 – Oct 2022

- Developed customer-facing React.js e-commerce features and reusable UI component libraries for enterprise-scale applications.
- Automated repetitive operational workflows using Python scripts, reducing manual configuration effort and deployment errors.
- Delivered REST API integrations, bug fixes, and sprint collaboration across cross-functional Agile teams for enterprise production releases.

KEY PROJECTS

DealDesk — Real Estate Platform

Senior Developer

React.js, NestJS, Python, MongoDB, Redis, SSE, Amazon S3, Docling, ML, AI

- Designed real-time SSE communication architecture for live data updates across distributed client sessions.
- Built Redis pub/sub messaging pipeline between Python and NestJS microservices for scalable inter-service communication.
- Developed notification systems, REST APIs, caching layers, and session management; cut delivery time by 50%.
- Leveraged AI and ML for PDF data extraction, trained ML models to rank property deals, and generated concise deal AI briefs.

PureAI – DrChrono | Healthcare

Senior Developer

React.js, NestJS, MongoDB, Redis, Amazon S3, AI

- Built backend systems for healthcare workflows: cron jobs, webhook integrations, Redis queues, report generation, and notifications.
- Improved development velocity by 40%; managed production incidents for critical clinical workflows.
- Leveraged AI to classify patient health data and generate health scores based on laboratory records.

Ivira – Care Compass | Healthcare SaaS

Senior Developer

React.js, Python, Redux, Amazon S3

- Architected multi-role SaaS platform (User, Admin, Super Admin) serving 100,000+ users with scalable system design.
- Built Python automation scripts eliminating repetitive processes; mentored junior developers and led production deployments.

EDUCATION

B.E. — Information Technology

Sardar Vallabhbhai Patel Institute of Technology, Vasad | Aug 2020 | CGPA: 8.23/10

AWARDS & RECOGNITION

- Winner — Internal Company Hackathon
- Firefighter Award — Critical Production Incident Resolution
